INTRO

VERSE 1

I was at a loss until you found me
You gave me a home within your love
I was running blind until you showed me
That life could be this good

PRE-CHORUS

I want all my friends to know about you
No matter what it takes I'll never stop
Everything I am is for your glory
My life's forever yours

CHORUS

I have found wild love, can't control it
Hit me like a wild fire, set me in motion
Nothing else compares losing all my cares
Now that I have found wild love

Wild, wild love

TAG

Nothing else compares losing all my cares
Now that I have found wild love
Wild, wild love

VERSE 2

Now I'm running far within your freedom
I don't even care what they would say
Living in your presence is the reason
I'll never be the same

BRIDGE

No nothing, no nothing compares
