## **Verse 1**

You know I'm sliding  
Steady climbing  
Tryna do it by myself, ain't strong enough for all  
these giants  
I cannot feed the beast  
Need You leading me  
Came through for me repeatedly  
When this world mistreated me  
I been through the valley  
Things been getting cloudy  
Need a double You (w) like I'm throwing up the  
cali  
We been on a rise  
Less lows than all the highs  
With You on my side  
You know I ain't surprised

## **Chorus**

You're all that I want  
You say the word and I'll follow  
I won't let anything get in my way  
Nothing , no nothing can stop me  
Cause I'm better, better with You

## **Verse 2**

You pulled up took a seat I was weak  
Now I'm soaring like a hawk Dominique  
So run it up  
Every time I get the chance I tell these boys it  
ain't no luck  
I'm pointing up yea  
You was the missing piece when I was hopeless  
Everything better when it's Your plan  
We came outta hiding  
Better wit Ya guidance
